

## Munksjö refurbishes the drying section of its paper machine in Tolosa plant, supported by FEDER funds

January 26, 2024

We're thrilled to announce that our plant in Tolosa, Spain - Munksjö Tolosa S.A.U. - has received a grant of €341,811 from the European Regional Development Fund (FEDER), for our project "Rebuild of the Drying Section PM11". This project focused on the refurbishment of the drying section at one of our paper machines. Key highlights include:

- New basement
- New dryers and rollers.
- New drive system
- Improved steam and condensate installation
- Total closure of the hood with improved aerothermal energy
- Significant increase in energy efficiency (~20%)

The assistance received under the Energy Efficiency Actions Program for SMEs and Large Companies in the Industrial Sector with financial support from the EUROPEAN UNION, has not only provided substantial aid covering a significant portion of our project investment but has also accelerated its implementation.

This support serves as a motivating force and a crucial catalyst for our operations, reducing costs for our company and shortening the project's payback period. We are committed to sustainability, and this project aligns with our environmental goals.

UNIÓN EUROPEA	EUSKO JAURARITZA GOBERNUA VASCO	FONDO NACIONAL DE EFICIENCIA ENERGÉTICA
	DEPARTAMENTO DE INDUSTRIA	INDUSTRIA
	DEPARTAMENTO DE ECONOMÍA Y NEGOCIOS Y MEDIO AMBIENTE	IDAIE
<b>RENOVACION SEQUERIA PM11</b>	<b>PM11ko LEHORREKO BERRIKUNTZA</b>	
Proyecto acogido a la línea de ayudas de ahorro y eficiencia energética en PYME y gran empresa del sector industrial, cofinanciada por el Fondo Europeo de Desarrollo Regional (FEDER), y gestionada por el IDAE con cargo al Fondo Nacional de Eficiencia Energética, con el objetivo de conseguir una economía más limpia y sostenible.	Proiektu honek laguntza hau jaso du: industria sektoreko enpresa handietan eta ETE-etan (Enpresa Txiki eta Ertainetan) energia aurrezteko eta energia-eraginkortasunerako laguntza-lerroa. Ildo hori FEDERekin batera finantzatuta dago eta IDAEk kudeatzen du, Energia Eftizientziaren Funts Nazionalaren kontura. Laguntza-lerroaren helburua ekonomia garbi eta jasangarriagoa lortzea da.
